CWG-D-4
13 December 1963

MEMORANDUM FOR: COMOR Photo Working Group

SUBJECT: Revised Target Priorities for Mission 4004

1. Attached is a list of revised priorities for targets which fall within nominal ephemeris for mission 4004. The priorities take into consideration the following criteria approved by COMOR on 12 December 1963 (COMOR M-216):

First priority (used also for orbit select-code number 2) stereo coverage required.

Second priority (code-number 5) stereo coverage required if not in conflict with first priority targets.

Third priority (code-number 8) stereo coverage preferred if not prejudicial to first or second priority targets. Also stereo coverage not desirable if its acquisition would preclude coverage of fourth priority targets.

Fourth priority (code-number 9 and active KH-4 targets) best possible coverage that can be acquired without loss of other targets.

2. When separated from the covering memorandum, the attachment may be handled in TALENT/KEYHOLE Channels.
